

EXTENSION FEET MOBILE BASE

1- PREPARE THE MOBILE BASE

Remove the umbrella from the mobile base

Flip over the mobile base. You can leave the round support/spigot mounted on the base.

Remove the 4 plastic feet from the left and the right part.

2- MOUNT THE EXTENSION FEET

Unpack the extension feet. In the package should be 2 plates with an L-shape, and 2 plates with an I-shape. The bolts you just unscrewed from the base, plastic feet you can put apart.

The feet can be attached using this one bolt. Make sure the rubber protection layer is facing down.

This should be the end result.

Flip over the base again and put the umbrella back in place.

Well done!
